FURNITURE & OBJECTS

REVITALISING THE DANISH DESIGN TRADITION TOGETHER WITH THE NEW GENERATION OF DESIGNERS AND CRAFTSMEN

2

Ro Collection is a Danish design company deeply rooted in the love of craftsmanship, quality, and timeless aesthetics.

Ro Collection is the contrast to the fast and constantly changing world we live in - designing furniture and interior objects that can last through generations.

Ro is the Danish word for serenity, calmness, and a slow living lifestyle - surrounding yourself with design that will only become more beautiful with the passing of time.

QUALITY

We work with nature's own
long-lasting materials

ORIGINALITY

We create genuine
Danish design

EUROPEAN PRODUCTION

We support skilled craftsmen
and artisans

THE NEW RO COLLECTION

From the beginning, Ro Collection has explored a wide range of materials and product categories and have always aspired to design and manufacture furniture, once the time was right.

5

From January 2022 Ro Collection introduces furniture firmly rooted in the Danish design tradition without any compromise.

With a strong set of common values centring around craftsmanship and design, Ro Collection, and the up-and-coming furniture brand True North Designs will unite under the Ro Collection brand name, with a mission to revitalise the Danish design tradition.

We work with nature's own materials – wood, leather, textiles, ceramics, and glass. All tactile materials with their own story to tell, allowing us to create unique, long-lasting products.

We strive for the timeless rather than time specific, and we create products that last for years to come – maybe across generations.

FURNITURE

SALON CHAIR

DESIGNED BY ASGER SOELBERG

The Salon Chair was designed by Asger Soelberg in 2015 and has since its entry onto the market established itself as an iconic and extremely comfortable modern take on the mid-century Danish design tradition.

The Salon Chair is a piece of rare beauty, and a chair that you can spend many hours in, whether for meetings or for dining with family and friends.

The Salon Chair is available in oak and beech in a range of finishes.

11

REGATTA CHAIR

DESIGNED BY ASGER SOELBERG

A beautiful stackable armchair with all the traits of mid-century modern, one would expect from a “Danish Chair”.

That was the challenge brought to designer Asger Soelberg. The result is the Regatta Chair.

A piece that stands out with its beautiful and functional design, that does not compromise with comfort - whether in a hotel, restaurant, or private residence.

The Regatta Chair is available in oak and beech in a range of finishes.

SALON TABLE RANGE

DESIGNED BY ASGER SOELBERG

With a few basic components a versatile system is created, that allows us to build tables from 70 x 70 cm and up. Standard size tops measure in diameter 120 cm, 180 x 90 cm, 220 x 100 cm and 320 x 100 cm in solid oak.

Available in bespoke sizes and finishes.

18

SALON TABLE

19

SALON TABLE - ROUND

ro'

SALON WRITING DESK

DESIGNED BY ASGER SOELBERG

The Salon Writing Desk is defined by its simple, elegant design, letting solid oak speak for itself. A beautiful classic desk for any home.

Not long ago, working from home was considered a privilege by many because it offered a refuge from a packed office, where concentration space could be hard to find.

Today, working from home is promoted for public health reasons, but that does not necessarily mean that you must turn your home into a replica of a modern office space.

And when working from home is once again a voluntary decision, our furniture will still serve you for many years to come.

The Salon Writing Desk measures 131 x 75 cm.

It is made from solid oak and can be ordered in an oil, soap or smoked oak finish.

SALON CONSOLE TABLE

DESIGNED BY ASGER SOELBERG

The Salon Console Table can be applied in an entrance hall below a mirror, as a cocktail table in the living room, a make-up table in the bedroom or as a small writing desk in a hotel room or office.

23

SALON EXTENSION TABLE - ROUND

DESIGNED BY ASGER SOELBERG

The Salon Extension Table - Round, in diameter 120 cm is perfect for apartments and smaller living spaces.

With two inlays it is transformed into 220 x 120 cm and will comfortably seat 8 people in armchairs.

It is made from solid oak and can be ordered in an oil, soap or smoked oak finish.

Extensions are supplied in the corresponding wood finish or in a black MDF version coated with a matte lacquer.

25

SALON EXTENSION TABLE

DESIGNED BY ASGER SOELBERG

THE KINFOLK GROUP

The Salon Extension Table comes in two standard sizes and can be extended with one or two inlays, that can be stored underneath the tabletop. The Salon Extension Table is built with a high quality synchronized extension mechanism allowing a smooth transformation from one length to another with one or two inlays.

A full family size table for 12 people at 220 cm x 100 cm extends to 320 cm x 100 cm with two inlays. A table size at 190 cm x 90 cm, extends to 290 cm x 90 cm with two inlays, will comfortably seat 10 people.

It is made from solid oak and can be ordered in an oil, soap or smoked oak finish. Extensions plates are supplied in the corresponding wood finish or in a black MDF version coated with a matte lacquer.

28

PANTRY

DESIGNED BY PETER SERUP

Pantry is a beautiful storage system in solid oak.

The corners are joined with classic finger joints and signature floating chamfer, that add a distinct and very tactile character to this range of furniture.

30 Pantry is supplied in two standard depths 26 and 36 cm, where 36 cm is a good all-round depth and available with both doors and drawers. The 26 cm deep modules can be fitted with French cleats for wall mounting, a 35 - 70 mm adjustable base or a beautiful solid oak leg frame.

The 26 cm deep modules are often specified as open wall mounted units fitted with French cleats and can also be placed on bases in both heights and with doors.

DODONA LOUNGE & SIDE TABLES

DESIGNED BY PETER SERUP

The Dodona lounge and side tables were developed in co-operation with designer and cabinetmaker Peter Serup, who made his debut as a commercial designer with this beautiful range of solid oak lounge and side tables.

The Dodona Tables are made of solid oak and can be ordered in oil, soap or smoked oak finish. The tables are available in two standard editions. One is 46 cm in diameter and 51 cm high and one is 60 cm in diameter and 46 cm high.

The Dodona tables can serve as coffee tables, sofa side tables, or bedside tables for books or lamps.

37

OBJECTS

A TRADITIONAL GLASS-BLOWING HANDCRAFT IN NATURAL COLOUR TONES

All our glassware is mouth blown pieces
in solid coloured quality glass.

The colours are inspired by the colour tones of the
surrounding nature of Denmark — the clear blue sea,
the amber and grey stones from our coasts, the purple
heathlands, and moss green forests.

43

FLOWER VASE

DESIGNED BY NINA ERICHSEN

The Flower Vase first came to life in the hands of the Danish designer Nina Erichsen, who created the piece in a glass workshop on the Danish island of Bornholm.

Crystal clear and solid coloured glass come together in the Flower Vase. The vases are mouth blown in heavy glass with traditional craftsman techniques.

Because the Flower Vase is handmade, differences in colours and transparency will vary from vase to vase. Small air bubbles may also appear - giving each piece its own unique story.

The shape and weight make the Flower Vase stand robust, while the graduated tint at the bottom hides the water and let the flower stems emerge gradually.

HURRICANE

DESIGNED BY REBECCA UTH

Inspired by the antique kerosene lamps, which tall cylinder of glass spreads light and protects the flame from its surroundings, the Hurricane is born.

46 Use Hurricane as a vase for flowers during the summertime and as a lantern for a candle during the darker winter months to create a cosy ambience.

The many variations of coloured glass create atmosphere; warm and cosy with Amber and Sepia brown, classic ambience in Smoked grey and Heather or exclusive moments in hand-painted pure platinum or gold on Smoked grey glass.

GLASS CANDLESTICK

DESIGNED BY REBECCA UTH

The two Glass Candlesticks in mouth blown glass work as a pair or as a single candleholder. The design fits with the Hurricane lanterns in colour and style – while remaining unique.

The candlesticks are designed for taper candles and are available in a range of colours.

51

LIGHT PIECE

DESIGNED BY REBECCA UTH

Light Piece is uniquely created with inspiration from the traditional craft of Nordic chandeliers. The artistic chandeliers hold up to three or six tall candles but are beautiful with fewer as well.

52

Light Piece is shaped by hand in stoneware with a crisp, rustic expression that both contrasts and compliments its candles, which almost seem to grow from the holders.

The complicated crafted pieces are all handmade by skilled artisans in a small ceramic workshop on the Danish island of Bornholm.

Light Piece may vary in colour tone due to its handcrafted nature.

Each Light Piece is carefully moulded by hand

HAND TURNED VASE

DESIGNED BY RO COLLECTION STUDIO

The image shows two hand-turned ceramic vases. The primary vase in the foreground is a classic, rounded shape with a slightly flared rim and a textured, golden-brown surface. To its right, a second vase with a more curved, bulbous shape is partially visible. The background is a plain, light-colored surface.

Our first launch within the Hand Turned collection is two beautiful vases turned by hand on a potter's wheel.

The vases are unique with a strong character, due to both the shapes and the choice of clay. The two shapes Curved and Classic, are each serving their own purpose and expression.

Before firing the piece in the kiln, the clay is dark and almost smooth looking, but the 1250 degrees in the kiln turns it into a bright and golden grainy clay with brown speckles.

The outer surface is kept untreated, leaving the vases with a rustic and Nordic appearance.

As the vases are 100% handmade, each piece will be unique.

CHANDELIER

DESIGNED BY REBECCA UTH

Chandelier is a four-armed candleholder, uniquely created with inspiration from the traditional craft of Nordic candlelight crowns.

Chandelier is hand casted in earthenware and must be handled with care. The transparent shiny glaze adds a depth to the chandelier, and it almost seems as if it is made of glass. The colour pigments of the glaze gather in the corners and edges of the candleholder, highlighting the shape and the sophisticated design.

61

Chandelier is produced in a small factory in Portugal, where proud pottery traditions have existed for generations.

OVAL VASE

DESIGNED BY REBECCA UTH

62

Oval Vases is a collection of three stylish colourful flower vases. The design plays with geometrical shapes, such as oval spheres, cones, and cylinders that merge in forms and optical illusions that may trick the eye. This gives a different expression depending on how you turn and place the vase.

The asymmetrical cut at the top adds another dimension to the vase and gives the stems a background. The oval base makes it possible to even place the vase in very narrow windowsills or shelves.

The shapes of the vases make them decorative both with and without flowers.

The vases are casted in white earthenware and glazed in shiny colours of warm Vanilla, dreamy Rose pink and cool Moon stone. The glaze appears transparent, almost like watercolours.

CERAMIC TABLEWARE

DESIGNED BY REBECCA UTH

Ro Collection tableware is a complementing background for dining, with a clear reference to the surrounding Nordic kitchen and nature.

The organic triangular form is characteristic for Ro Collection ceramics, created in hand casted stoneware.

Setting a table with this collection, allows you to create endless compositions on the table. Both the shape and colour create an organic background for food - for festive occasions or everyday life.

The collection is produced in a family-owned factory in Portugal where proud pottery traditions have existed for generations. The plates are available in four sizes and are suitable for breakfast, lunch, dinner, and desserts.

The plates are ovenproof and dishwasher safe.

ASH GREY & LAVA STONE

Ash grey is a semi-mat glaze whereas the Lava stone has a bit shinier surface. The two glazes match each other and can be mixed on the table.

The colour tone of the glaze may differ from plate to plate, making each piece unique.

Made in the same stoneware and colours as the tableware.
With its soft triangular shape and smooth glaze, the Cup fits
comfortably in the hands for the soothing enjoyment of a warm
cup of coffee or tea.

JUG

DESIGNED BY REBECCA UTH

A hand casted stoneware jug glazed with reactive glazes. The organic triangular form is characteristic for Ro Collection and Jug fits with the tableware collection of bowls, cups, and plates, both in relation to glaze and design.

74 The colour tone of the glaze may slightly differ from Jug to Jug making each piece unique.

The wide spout and organic shape give Jug character. The shape also provides a good grip.

Jug is produced in a small factory in Portugal where proud pottery traditions have existed for generations.

BOWL

DESIGNED BY REBECCA UTH

HANDMADE IN PORTUGAL

Bowls are hand casted in stoneware and glazed with reactive colour glazes. Bowls are a Nordic setting for everything you may put in them.

Use them in the kitchen for cooking both hot and cold dishes - great for serving spices, dips, snacks, salads, and fruit.

The colour tone of the glaze may differ from Bowl to Bowl making each piece unique. Bowl is available in many sizes and is oven- and microwave proof and dishwasher safe.

77

The clay Bowl is hand casted and only a few hours old, just out of the mould and semi-dry. The excessive material is being removed, and the Bowl must dry before firing the kiln.

All materials are gently processed and finishing touches are made by hand

OAK BOARD

DESIGNED BY LASSE SORTKJAER

Oak Boards are a series of cutting and serving boards made of thick solid oak wood.

The design is the outcome of a playful session with geometric shapes. Circles inside circles, different angles and curves create the unique look and functional shape.

The rounding between the two circles makes a deep and wide groove for collecting liquids and crumbs.

The elegant, curved edge provides you with a good grip which makes it easy to flip the board and invites you to use both sides.

Use Oak Board in the kitchen as a basic cutting board or as a serving board at the dining table for various tapas, sushi, bread, roast etc. When not in use, the board creates a delicate decoration, stored up against the wall on the kitchen tabletop.

TOOLBOX

DESIGNED BY AURÉLIEN BARBRY

Toolbox is a multi-purpose storage piece and serving tray inspired by the traditional handy-man toolbox. The designer Aurélien Barbry is re-thinking functionality and aesthetics in this minimalistic luxury storage box, which can be used to store various items such as magazines, kitchen utensils, and office equipment. Use Toolbox as a tray and carry it by one hand to bring snacks to your favourite place in the garden.

Toolbox is produced at a small workshop in Europe and in FSC certified oak wood. Toolbox is available in two sizes, a low and wide version, as well as a high and narrow version.

GLASS & CARAFE

DESIGNED BY REBECCA UTH

A geometrically distinct carafe and a drinking glass in mouth blown quality.

The design invites flexible usage.

The spherical drinking glass fits as a lid on the carafe and the set is easily lifted with one hand when two glasses are stacked on top.

Glass & Carafe is handcrafted in a classic Smoked grey.

GLASS BOWL

DESIGNED BY REBECCA UTH

The spacious bowl is lifted by its cylinder stand and generously presents the dish at the dining table. The bowl can be used for serving salads, fruits, desserts, and the like.

Glass Bowl is handcrafted in a classic Smoked grey.

89

OAK PIECE

DESIGNED BY MIKKEL KARLSHØJ

Oak Pieces are wooden objects. Use them on the dining table for exquisite delicacies - or on the bedside table for treasured jewellery

Oak Pieces are created in a woodturning process which spans over several days. They are treated with food safe oil to make the wood appear in the most beautiful way, disposing its life, the natural cracks, and the graining.

Oak Pieces are made from handpicked massive logs that have dried for more than 10 years - handcrafted at a family-owned workshop in Portugal.
